REASONS FOR ALLOWANCE

1. Applicant's election without traverse of claims 1-7, 13-15 and 21-24 readable on Species II in the reply filed on 19 December 2005 is acknowledged.

Moreover, claim 1 is generic and has been found to be allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 8-12, 16-20 and 25-29 directed to the other Species no longer withdrawn from consideration since all of the claims to this Species depend from or otherwise include each of the limitations of an allowed generic claim.

2. Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1, an illumination system comprises a light source including an emitting layer and a reflecting layer, a wavelength conversion layer to convert a first wavelength range into a second wavelength range, and an envelope with an aperture. In which, the envelope reflects and recycles part of light of the first wavelength range and part of light of the second wavelength range, and emits them through the aperture as incoherent light.

Claims 2-29 are dependent on claim 1.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Rattigan et al. [US 5,036,436] discloses an illumination system having a light source with a reflective surface and a phosphor layer, and a housing with an opening. However, Rattigan et al. does not disclose the above discussed limitations, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao Q. Truong whose telephone number is (571) 272-2383. The examiner can normally be reached on Monday-Friday (8:00 AM - 4:00 PM).
